

The oversize air cargo market

Very special market

Freight forwarders & brokers / Civilian & Military

Multi-sector customers

Aerospace
Oil & Gas
Energy

Big machinery
Maritime
Humanitarian

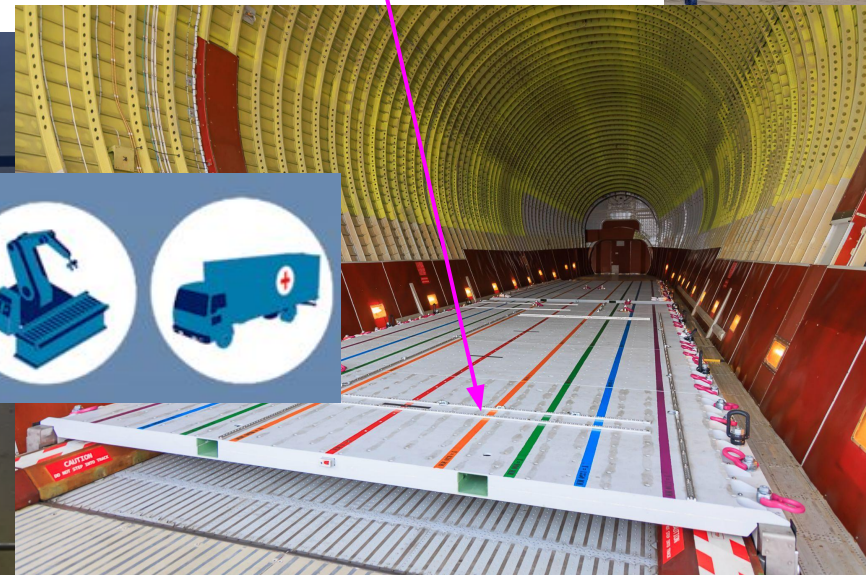

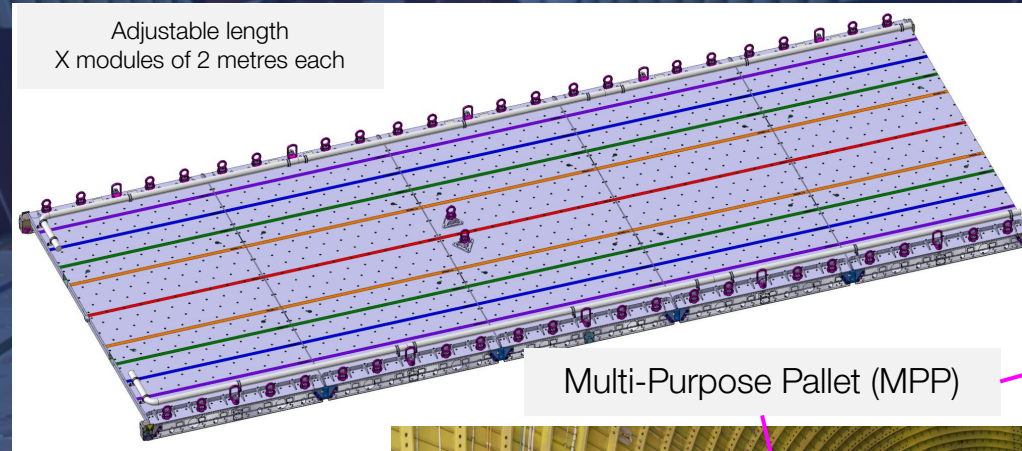

Aircraft availability - Reliability - Cost efficiency

Multi-Purpose Pallet

For any type of payload

Adjustable length

- Modular pallet compatible with helicopters, vehicles, engines on stands, containers, etc. with minimum reconfiguration.
- Enabling several missions in a row without having to come back to home base for pallet change.

Airbus Beluga Transport

Outboard Platform

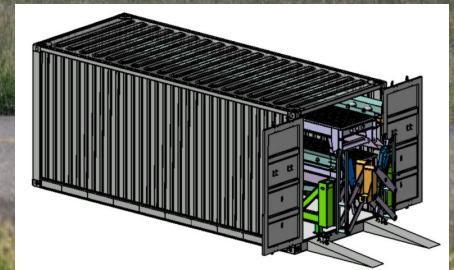

To load / offload any type of cargo

Positioned at strategic locations

Rapidly dis/assembled

Easily dispatchable to other locations

- Deployed worldwide at main customers locations
- Dis/assembled in a day, easily transportable by sea, road, and air in standard 20' containers
- 15-20 outboard platforms expected by the end of 2023

Onboard Cargo Loader

Bringing greater reactivity & autonomy in un/loading activities

- Travelling with the cargo inside the Beluga, for maximum reactivity and autonomy
- Automatically deployed and rigged to the aircraft
- Providing lifting capability
- Usable for payloads up to 20 t (44,000 lbs) and 12 m (40 ft) long
- Entry into services expected in Q1-2023
