 - 5% Three-phase: 415V / 50Hz ± 5%
- 2. All prices quoted include approval fees, installation, power consumption, and standby maintenance.**
- 3. Lighting Connection:**
 - Without any exception, exhibitors, including those who provide their own lighting fixtures, will be charged the lighting connection. Exhibitors shall loop on the cable on their own, Official contractor will be providing the electrical source only.
- 4. Lighting connections are charged according to the number of tubes and bulbs lighted on the stand.**
- 5. Lighting Connection (maximum 100W per fitting) must be ordered for every lighting item fitted at the booth. (e.g., A 150Watt Metal Halide = 2 lighting connections).**
- 6. Light boxes are charged according to the number of tubes in each light box, using the lighting hook-up or connection rate, whichever is applicable. Exhibitors are encouraged to use tubes of higher voltage (maximum 100W per fitting) wherever possible.**
- 7. Exhibitors who provide their own lighting fixture containing wiring installation must comply with the following procedures: -**
 - Submit detailed drawings of such installation to PICO for approval.
 - Show proof that such installation is carried out by a registered wiring contractor with relevant Class of Certificate of Registration issued by the Energy Commission of Malaysia or its equivalent.
 - Use materials approved by the Energy Commission of Malaysia or its equivalent.
- 8. All equipment should have independent neutral & earth for equipment that require three phase power supply.**
- 9. All exhibitors are encouraged to retest the incoming voltage before commissioning their equipment.**
- 10. Exhibitors whose lighting fixtures are found to have been the cause of trips in power supply will be responsible for all re-energisation.**
- 11. Exhibitors are encouraged to use Uninterruptible Power Supply (UPS) to prevent any immediate interruption of power supply in the event of tripping and stabilizers for sensitive equipment.**
- 12. Each individual power point or isolator is restricted to the use for only (one) piece of equipment, and it cannot be used for lighting purposes.**
- 13. Exhibitors should refer to and obtain from PICO for special light terms required and pay all relevant costs directly to Pico.**
- 14. Plans and location of electrical points must be submitted 4 weeks before the show opening to Pico.**
- 15. PICO reserves the right to request Exhibitors to change any wiring installation, connection etc. contained in lighting fixtures for safety reasons.**
