## WHAT'S INSIDE

### Ocean Transport

Meeting green financing and fuel objectives presents a learning curve for marine project cargo transporters; what's the timeline, where's the progress, what are the obstacles?

### Technology & Innovation

Breakbulk movers are dipping their toe into the cryptocurrency world. Will it pay off?

### Profile

Ryan Foley, CEO Industrial Projects at DHL Global Forwarding

### Europe Infrastructure

The EU agreement to invest €1.037 billion in five cross-border infrastructure projects will support projects that span the bloc, covering electricity transmission, gas storage and CO2 transportation.

### Metals & Mining

Record investments in 2021 could prove to be the start of a decade-long bull run for metals mining, but can movers keep up with the pace?

### Synchronized Lifting

At project sites where a crane cannot be accommodated and accuracy is paramount, synchronized lifting comes into its own.

### Plus

#### Africa's Wind Potential

#### Project Apprenticeships Reimagined

#### Enhanced U.S. Rail Infrastructure

#### UpFront

#### Thought Leaders and more!

## GLOBAL EVENT PARTNERS

### GEP 15% discount off all magazine advertising

If your company exhibits at all three Breakbulk events, you're eligible for Global Event Partner status and receive the discount.
