due Monday,
August 28

In this issue and coming to
the Main Stage at Breakbulk
Americas

Gulf of Mexico Ports & Terminals

How are these anchors of transport
responding to a wave of oil rig
repairs, refurbishments, and
decommissioning?

Renewables and the Wind Cargo Mismatch

Logistics capacity and wind industry
demand is out of alignment – what
can we do?

South America

Infrastructure demand continues to
outpace supply; how can breakbulk
and project cargo stakeholders
break the cycle?

Caribbean

What challenges do project owners
and EPCs face in this region and
what are their solutions?

Profile

Ed Talbot, Managing Director,
Roll Group
