

BREAKBULK

EUROPE Bremen
26-28 May 2020

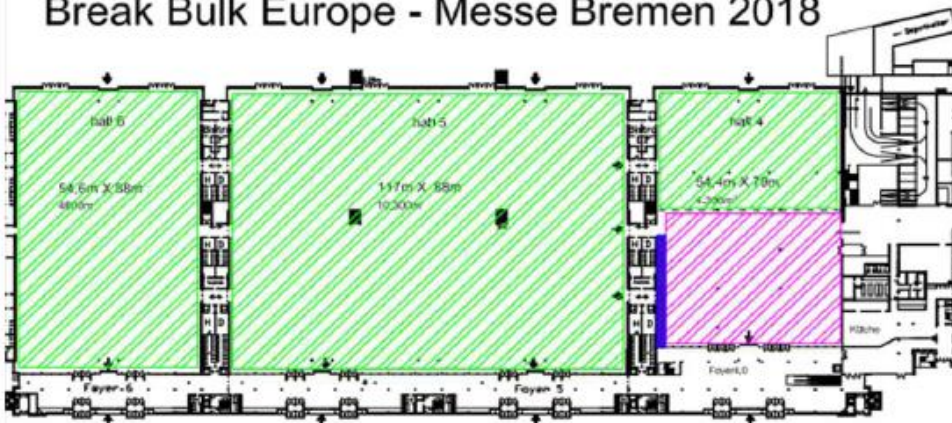

Height Limits

The maximum height limit for any form of stand fitting, perimeter and partition walls, lighting, structures and/or graphic towers is 5 m from the hall floor in halls 4,5 and 6 where possible including platforms and the use of banners, flags and balloons and 3.70 m in the lower part of hall 4.

The Organiser does not provide partition walls (for non-shell scheme stands) and each stand must build freestanding partition walls between their own & adjoining stands. These must be to a minimum height of 2 m and a maximum height of 5m in hall 4,5,6 and 3.70m in the lower part of hall 4. Adjoining walls on the side connected to a neighbouring stand must be finished in a hard-plain white surface. NO FABRIC.

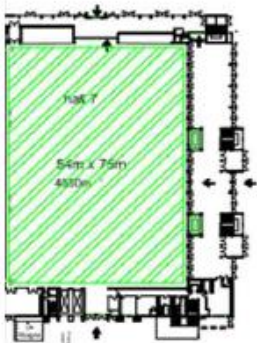

Logos and branding are not permitted on the rear face of partition walls when these walls overlook neighbouring stands. Where partition walls are constructed over 2 m in height, it is the responsibility of the exhibitor constructing the wall to dress the rear of the partition wall down to a height of 2m in a solid white hard-plain surface. NO FABRIC.

Break Bulk Europe - Messe Bremen 2018
