Top visiting companies

CWIEME Features

CWIEME WOMEN IN ENGINEERING

The **Women in Engineering** programme provides a platform for dialogue, raising awareness and supporting the industry's efforts to create more inclusive and equitable workplaces for employees.

CWIEME INNOVATION ZONE

The **Innovation Zone** is a dynamic area designed to spotlight pioneering companies and ground-breaking solutions that are shaping the future of the electrical and transformer industries.

CWIEME FUTURE ENGINEERS

The **Future Engineers** programme bridges the talent gap by bringing together faculty and students, where participants will not only leave with a deeper understanding of the industry, but also with a network, practical skills and inspiration for future innovations.

CWIEME TALKS

Through our **CWIEME Talks** platform, we offer a wealth of resources, from engaging talks with leading industry professionals to in-depth whitepapers that provide actionable strategies and deep dives into the latest trends and innovations.

CWIEME Features

The **Transmission & Distribution Club** brings together industry leaders, engineers, and procurement professionals to network, collaborate, and conduct business in a focused environment. The lounge is exclusive to OEMs, TSOs and Grid Operators, and provides a central hub for discussions on grid innovation, power transmission, and energy distribution.

The **C-Suite Club** is designed for senior executives, thought leaders, and key decision-makers in the electromechanical, energy, and manufacturing industries and with a tailored agenda covering Transformers, Electric Motors, and Emerging Technologies, participants will engage in conversations under the Chatham House Rule to ensure open, candid dialogue.

The **Academic Excellence Hub** is a dedicated platform bridging academia and industry together, providing a stage for researchers, students, and professionals to showcase groundbreaking studies, discuss emerging technologies, and explore future trends.

The **CWIEME Workshop** is a highly interactive, hands-on session designed for professionals in the industrial motor sector. Featuring a unique, discussion-driven format, this session will provide practical, insightful takeaways and tackle key topics such as circular economy models, energy efficiency improvements, and digitalization in motor manufacturing.
