

Switchgear Central

Meet the manufacturers, utilities, grid operators, EPCs and engineering teams sourcing solutions across the supply chain.

The Switchgear Central is where you can build new relationships and position your brand at the centre of Europe's evolving power sector.

Why this market matters

Grid expansion is accelerating across Europe and increasing demand for reliable switchgear, protection systems and grid technologies that can support a more resilient electricity network.

Why exhibit

01

Meet engineering, procurement and technical decision makers

02

Build relationships with utilities, TSOs, DSOs and EPCs

03

Showcase new switchgear and protection technologies

04

Position your business within Europe's expanding grid infrastructure market

05

Connect with manufacturers delivering transformers, substations and power equipment

Who should exhibit

Medium or high voltage switchgear component suppliers

Protection equipment suppliers

Monitoring technologies or substation solutions

Switchgear manufacturing technologies & materials

Who you could meet

- Switchgear manufacturers
- Utilities
- Grid operators
- EPCs
- Engineering teams sourcing solutions

Prices start from **€3,790**

A ready-to-use package, so you can focus on conversations rather than stand logistics:

- 4 sqm stand area
- Printed graphics
- 1 high table and 2 bar stools
- Carpet
