

Hyve Expo International LLC, 3 Verkhnyaya Krasnoselskaya St., Bldg. 2, Moscow, 107140, Russia

Dear colleagues and partners,

Thank you for your cooperation and participation in the exhibitions ExpoElectronica/ElectronTechExpo.

As you know, the Decree of the Governor of the Moscow Region dated 12 March 2020 No. 108-ПГ introduced a ban on holding mass events on the territory of the Moscow Region. In the hope that the restrictive measures will not last for a long time, the exhibitions ExpoElectronica/ElectronTechExpo were postponed to August 2020.

However, this ban was repeatedly extended, and despite formal lifting thereof at a later stage, confirmation by the organizer of compliance with the Standard for the functioning of organizations carrying out activities for the organization of conferences (congresses) and exhibitions in order to prevent the spread of the new coronavirus infection (COVID-19) was made a condition precedent for resumption of exhibition organizing activity, and this Standard was not issued for a long time.

Given the lack of clarity on the actual date of resumption of exhibition organizing activity, Hyve Expo International was unable to begin preparations for its exhibitions, which are complex and multifaceted.

In addition, in halls No.14 and No.15 of Exhibition Pavilion No.3 of the Krasnogorsk branch of Crocus Expo, a temporary infectious hospital for patients with COVID-19 of the Krasnogorsk City Hospital No.1 was set up by agreement with the Ministry of Health of the Moscow Region. According to the official response of the Department of Rospotrebnadzor for the Moscow Region dated 15 July 2020 No. 50-00-06 / 30-36347-2020, received by Hyve Expo International LLC in response to an official request, this hospital continues to operate, and its dismantling will be accomplished in stages, with carrying out disinfection measures. However, the exact dates for the above dismantling and disinfection measures were not provided to Hyve Expo International LLC.

Thus, the ongoing uncertainty about the possibility of preparing and holding the exhibitions ExpoElectronica/ElectronTechExpo remains. In connection with the above, it has been decided to hold the exhibitions ExpoElectronica/ElectronTechExpo on new dates: 13-15 April 2021.

For all participants who signed the appropriate Addendum, all paid services will be rolled over to the new dates with no change to their cost, and the priority choice of the stand location will be retained in case of free space.

Please communicate your decision in any form to your manager for the preparation of Addenda to the Contract. Official dates of the international exhibitions ExpoElectronica/ElectronTechExpo: 13-15 April 2021; venue: IEC "Crocus Expo".

Yours sincerely,

Dmitry Zavgorodniy
General Director
