Exhibitor Feedbacks

International exhibitions are one of the most effective platforms where we share the opportunities and capabilities we have gained with other countries and reflect the progress we have made with respect to railway and industrialization. Eurasia Rail, which allows us to keep track of the emerging technologies in the rapidly developing rolling stock industry, serves as a medium to share the opportunities and capabilities we have gained with other countries and leads the way to new partnerships." "As State Railways, we continue to invest in Konya and provide the city with new works following our new vision and mission. The biggest motivation for the participation is the desire to carry their products by railway. In this regard, Konya becomes even more important to us."

Ali İhsan Uygun, Director General of TCDD

For three days, we had the chance to see and evaluate the works produced in the rolling stock industry with guests from many different parts of the world. As Hyve Group, we bring together the world's leading industry representatives to evaluate the latest technologies and investments in the industry since 2011. This year as well, we hosted domestic and international professional buyers from Turkey, Saudi Arabia, Azerbaijan, Taiwan, Czechia and Iran in cooperation with T.R. Ministry of Transport and Infrastructure, T.R. Ministry of Trade, Turkish State Railways (TCDD), International Union of Railways (UIC), Chambers of Commerce, and Trade Associations.
