Eurasia Rail will host the conference which will provide information flow to railway sector...

Eurasia Rail, which gathers professional visitors with leading companies of the sector and provides them with the opportunity to track innovations closely, will constitute an important platform for sharing sectoral information and experience with a simultaneous conference program. At the conference, the subjects of “Railway Forum”, “Urban Railway Issues”, “New Railway Legislation”, “Developments in Rolling Stock Technology”, “Track Maintenance Safety” and “Special Subjects in Railways” will be discussed and an information flow will be provided to the sector.

ITE Turkey Delivery & Logistics Group Director Moris Revah said the following: *“Due to their fast, economical, environment-friendly, safe and modern nature, rail systems become more and more important throughout the world. Primarily from European countries, the investments made to increase modernization and carriage capacity in railways keep growing and growing. Our country is on the lookout for new markets to increase the export of its production. The B2B sessions which will be held within the scope of Eurasia Rail, which is the only railway exhibition in Eurasia region and one of the three biggest railway exhibitions in the world, will provide great contributions to railway sector and the national economy. Conference programs which will take place simultaneously with the exhibition will also constitute an important platform for sharing sectoral information and experience.”*
