

The Anniversary 25<sup>th</sup> international exhibition for transport and logistics services, warehouse equipment and technologies **TransRussia** will take place from 12 to 14 April 2021 in Moscow, at Crocus Expo. The event is organized by Hyve, a leading company in the Russian exhibition services market.

More than 200 companies will take part in the exhibition, providing services for the transportation of goods by road, rail, water and air transport, forwarding services, cargo handling in terminals and ports, financial services and customs clearance of goods, integrated logistics services, solutions for mandatory labeling of goods, warehouse equipment and warehouse automation and IT solutions. The total area of the exposition will exceed 14,000 sq.m.

In difficult economic conditions and the restrictions imposed by the pandemic, the exhibition organizers did everything possible to ensure the presence of exhibitors from 23 countries. Companies from Belarus, Kazakhstan, Azerbaijan, Latvia, Germany, Belgium, Great Britain, USA, UAE, Turkey, China, Hungary, and other countries will take part in **TransRussia 2021**. More than 50 companies will participate in the exhibition for the first time, among them:

**East West Gate (EWG)**, the largest intermodal combined terminal in Europe with an area of 85 hectares, based on the junction of two types of railways, will be presented for the first time at TransRussia 2021. Construction of the terminal with the latest technology began in January this year in Fényeslitke, Hungary, close to the Hungarian-Ukrainian-Slovak border. The EWG terminal, which will be commissioned in Q1 of 2022 at the junction of normal and broad gauge, will have a nominal throughput of 1 million TEU per year.

The press conference at which the **East West Gate (EWG) terminal** will be presented will be hosted by the CEO of the investment company East-West Intermodal Logistics Plc. **Janos Taloshi**. Please send an application to [info@eastwestil.com](mailto:info@eastwestil.com) in order to register for the press conference.

**Delo Group of Companies**, Russia's largest transport and logistics holding that manages sea container terminals in the Azov-Black Sea, Baltic, and Far Eastern basins, a network of railway container terminals, a fleet of containers and fitting platforms, will take part in the exhibition with a collective stand for the first time and will introduce all companies that are part of the group.

**NAVIS**, a US-based company of Cargotec Corporation, will showcase products and solutions that provide greater productivity and efficiency across the entire cargo supply chain.

The **Smart Warehouse Group of Companies / IQSKLAD** will present equipment and solutions for the complex automation of business processes of logistics and warehouse complexes, production lines, trade, and service enterprises.

The significance of **TransRussia** for the industry is confirmed by its long-term support from state and executive authorities, industry unions and associations. This year the exhibition was supported by: the Ministry of Transport of the Russian Federation, the Committee of the State Duma of the Russian Federation for Transport and Construction, the Moscow Government, the Federal Service for Supervision in the Sphere of Transport, the Russian Union of Industrialists and Entrepreneurs.

For the first time after a long forced break, **TransRussia 2021** will become a key platform for a comprehensive solution of business issues, where industry representatives will be able to meet with the maximum number of companies, negotiate with leaders of the transport and logistics industry, find new service providers, and choose the most favorable terms of cooperation, get up-to-date and expert information at the content events.

## BUSINESS PROGRAMME

This year, as part of TransRussia business programme, we will continue to consider the main tasks and prospects for the development of the transport and logistics services market: what problems the industry faced in 2020, what steps have been taken, and what has yet to be implemented by business and the state.

25<sup>th</sup> International exhibition for transport and logistics services, warehouse equipment and technologies

**12–14 April 2021**

Moscow, Crocus Expo  
Pavilion 1

A rich business program will provide market professionals with additional opportunities for exchange of experience, networking and strengthening personal contacts.

In 2021, within the framework of the TransRussia Transport and Logistics Congress, **6 industry conferences will take place:**

- 25<sup>th</sup> International conference for cargo owners and carriers “TransRussia” (12-13 April)
- 5<sup>th</sup> Conference on the transportation of oversized and heavy cargo Breakbulk Russia (12 April)
- 5<sup>th</sup> Conference “IT solutions in transport and logistics” (12 April)
- 3<sup>rd</sup> Conference on supply chain management and optimization (14 April)

Taking place for the first time will be:

- Industry conference “Logistics in e-commerce” (13 April)
- 1<sup>st</sup> Conference on enterprise intralogistics management (13 April)

Also, for the first time, 2 new content theaters will be presented:

#### TransRussia Lecture hall

A new content platform, within which it is planned to conduct lectures and round tables on the topics of insurance, factoring, transportation of groupage and temperature cargo. Also, the site will host project sessions to optimize logistics processes and transport safety through IT solutions.

#### Logistics Championship

During the three days of the exhibition, a new interactive area “Champions of Logistics”, created together with the digital logistics platform CARGO.RUN, will operate. Visitors and exhibitors will be able to test and pump their skills by fighting in a virtual battle for the title of a champion. In the game, you will need to manage a fleet of trucks and find good orders, avoid empty runs and downtime, and earn the maximum amount of money. The champion will need to complete 10 levels, 10 virtual days with a positive balance and profit.

Twice a day we will select the winners and award them with valuable prizes.

#### COVID-19 AND SAFETY MEASURES

Hyve, the organizer of TransRussia 2021, cares about the health and safety of its exhibitors and visitors. We have developed general rules for holding exhibitions in the context of new safety standards approved by Rospotrebnadzor and UFI. At the entrances to the exhibition complex, non-contact body temperature measurement will be carried out. It will be possible to enter the exhibition only with a mask and gloves. PPE will be available at check-in desks. All participants and visitors of the exhibition and events on the site will be able to use an antiseptic free of charge and at any time. In addition, the intensity of cleaning the exhibition area will be increased.
