

YUGAGRO

YugAgro Connect Leadscanner

YugAgro Connect Leadscanner – innovative digital tool for lead generation which simplifies the achievement of the commercial result of your exhibiting.

YugAgro Connect leadscanner collects a database of visitors to your stand, containing contact information and profile of your potential customer. It allows you to quickly exchange information with potential customers, immediately process data and monitor online the efficiency of the exhibiting.

YugAgro Connect leadscanner simplifies the achievement of the commercial result of your exhibiting:

Save time and collect a ready-to-work database of leads

You don't need to spend time on filling paper forms and collecting business cards – YugAgro Connect will do it for you.

Take a competitive advantage due to efficiency of database processing

Full collected database of leads can be downloaded in one click - and you can make an offer to customers faster than competitors

Increase the loyalty of your potential customers due to the ease of use

Visitors to your stand will appreciate the opportunity to get your materials (catalogs, presentations, price lists) in their personal account, and not to carry these heavy materials all day at the exhibition

Assess the effectiveness of exhibiting and forecast future sales

The obtained database of potential customers will allow you to categorize your customers according to their product interest, company size, etc. You will be able to analyze the demand for your products and build a sales strategy that allows to obtain maximum commercial benefit from participation in the exhibition.

In addition, you will be able to evaluate the effectiveness of the exhibition and each manager's KPI individually and generate reports on the exhibition.

YugAgro Connect Leadscanner

works for you:

Identify visitor to your stand by barcode on his badge. It allows your manager to choose the better scenario for business talk.

Collect database of visitors to your stand that contains contact details and visitor profile. Database is available online 24/7 in your personal account.

Send your marketing materials (catalogues, brochures, prices etc.) to visitor's personal account in digital format

Create online reports on effectiveness of your exhibiting

Create reports on each manager's KPI at the exhibition

How YuAgro Connect Leadscanner works:

Waiting for a visitor to your stand

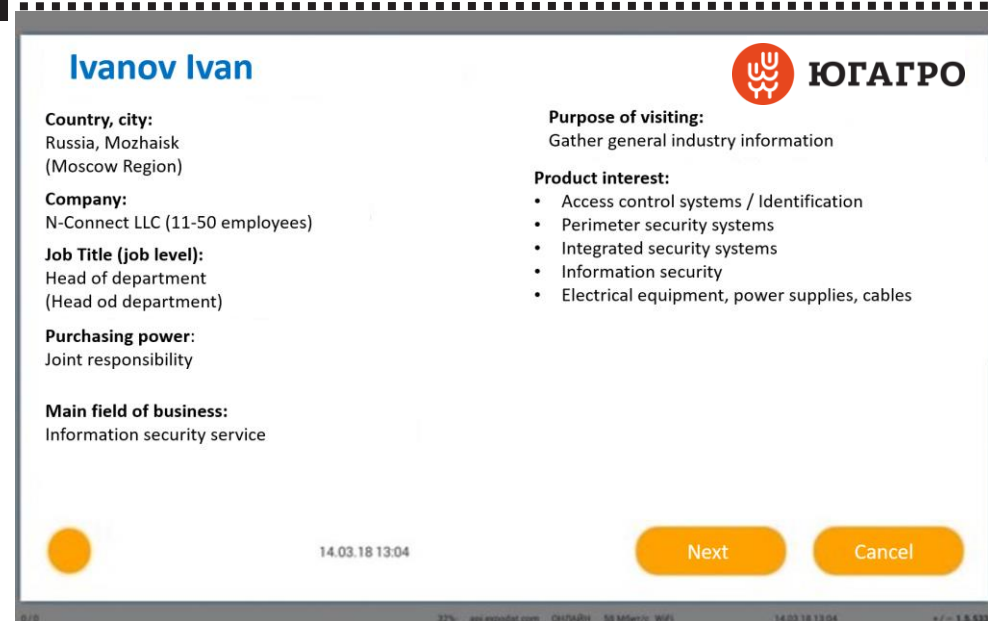

Manager choose the better scenario for talk. Visitor profile on screen is available for 20 sec.

- If 20 sec is not available to evaluate the data, you need to press Pause button in the left bottom corner of the screen
- If the visitor is not interesting for the company please press Cancel button
- To continue work with this visitor please press Next button

Your manager start talking with visitor and ask to scan his/her badge

Visitor profile appears on the screen

How YugAgro Connect Leadscanner works:

List of your materials appear on screen

In this mode full list of your materials is available on the screen

- 1 Suggest to visitor to choose the most interesting materials and selected materials will be available to him in his personal account
- 2 Add a message to continue working with visitor. Press Message button (in the right top corner). A message is seen only in your database, visitor cannot see it.
- 3 To finish working with visitor press Finish button

The screenshot displays the 'YugAgro Connect' interface. It features a grid of six sports-related icons: Hockey, Biathlon, Bobsleigh, Figure skating, Skiing, and Snowboarding. Each icon is accompanied by a small circle in the top right corner, likely for selection. A red hand icon with the number '1' points to the Biathlon icon. On the right side, there is a vertical sidebar with a 'message' button (indicated by a red hand icon with '2'), a 'НАЗАД' (Back) button, a 'Choose all' button with a checkmark icon, and a prominent green 'Finish' button (indicated by a red hand icon with '3').

Additional questionnaire can contain few questions (we recommend not more than 5): each question is available on separate screen

All data collected from additional questionnaire are available only in your database and reports. Visitors can not see it

After using lead scanner you receive database of visitor to your stand containing full profile of your future customers. Contact details are collected from Organiser's registration form and product interest is collected from your questions.
